I definitely enjoy this course it is fun and interesting; therefore, I have been able to be engaged/

always come to class and do the readings, find everything covered really interesting

I would say that I am dedicated to this class and I find it quite interesting to learn about. it has related a lot to my own life which has helped me feel more connected

I kept up with the readings and handed in assignments when they were due. In class I was taking notes and paying attention to what was being taught.

It was so informative. We talked about so many topics.

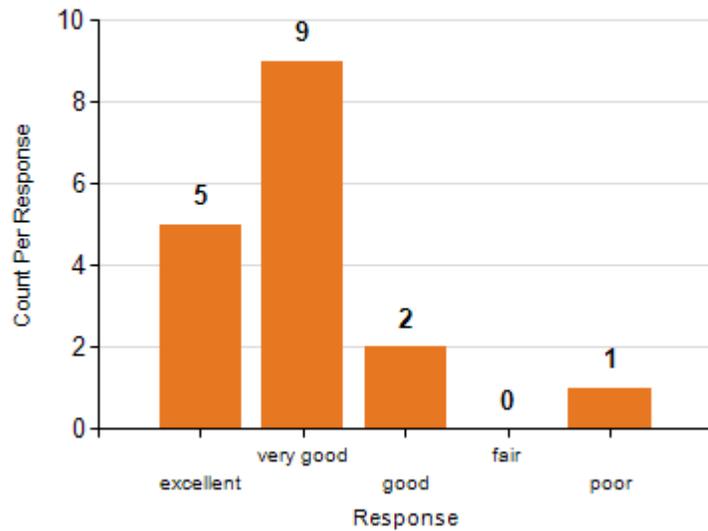

Most of it is known but learning more about the topic is interesting

Professor Standlee provided a great deal of information about the subject during this course, but did so in a way that kept everyone's attention.

This was a very interesting course and I liked the topics we covered

I learned a lot about the history of the medias I encounter daily. Beyond that I learned a lot about the mechanics within the medias. Some stuff I already knew just from my own use of media but overall I feel I did learn a lot of useful information from this class.

**Q5 - How helpful were the course materials used by the instructor?**

Readings aligned with what we covered In class

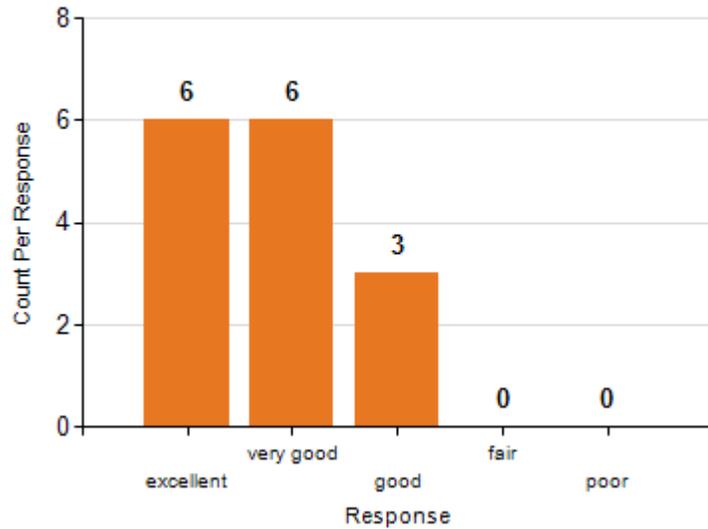

The material was good however some of the readings were long and there were always multiple long readings to do. The syllabus was helpful with the readings and videos linked. I liked having the powerpoints available

The assigned readings were easy to understand and I was able to follow the material without struggling to do so.

The readings greatly prepared me for class discussions and assignments

We did not have a textbook we had to buy but the other readings were provided and so interesting and up to date.

**Q6 - How effective was the instructor in conducting class sessions?**

Powerpoints and discussions were intriguing

The class was good however I wish we could do more interactive stuff in class rather than lectures the whole time. I think it would be interesting with this topic

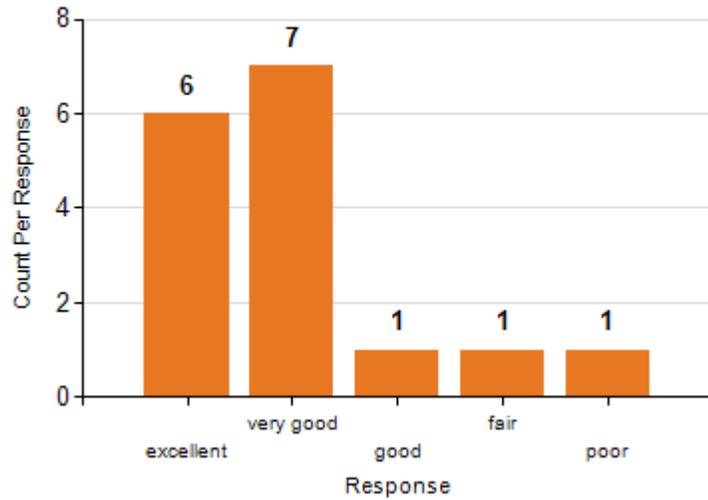

Prof. Standlee is very dedicated and is always looking for intraction throughout our discussions. I loved ho we were able to choose our own artifacts on social media and how it impacted our own lives

Professor Standlee's presentations were very well written and taught, and were also available on moodle in case I did not have time to copy something down. She also allowed for student participation during lectures, and gave everyone the opportunity to do their own presentations.

Helpful powerpoints and detailed lectures

In depth presentations

Asked really well probing questions

Liked papers rather than exams

We were assigned two mid term exams where we were asked to write 3 research papers within each exam all in a weeks time.

I think they really tested our knowledge of what we learned. I wish it wasn't as much work required for them but I liked the ability to choose which questions to do

Q8 - How would you rate the instructor's performance in providing fair, prompt, and helpful comments and grades on your work?
