| I have lacked in completing a bunch of assignments due to personal reasons but I am always able to understand the material because the notes and lectures are thorough and there is always times to ask questions. |
| I put a good amount of time into this class to read the course material and to participate in discussions. |
| I enjoy this class so I feel passionately about being in this class so I do my best to be in class and engage. However, I have gotten sick a few times. |
| I committed a lot of time to reviewing the material for this course due to my pure interest in the material works |
| Despite missing class due to illness or mental health reasons, I really enjoyed our class sessions and mostly got the work done without much issue. It was easy to be engaged, especially on days of discussion. |
| Always attentive in class and participated a good amount. I also got the readings and assigned work completed when asked of me. |

| I originally began this class with very little knowledge of theory, but I feel very well-versed in theory now. I actually really enjoyed learning about the different theories, and I now feel very prepared to take an upper-level theory class. |
| I have already explored some of the concepts in this course, but I have expanded very much on my knowledge of old and new concepts through this course. |
| Interesting introduction to different theories and theorists. |
| I feel like I have a better knowledge in sociological theory; moreover, there any many things in this course that i have stuck with me. |
| Everything is well explained and the resources give a great deal of information that is also reviewed through class time. |

| I think that using more videos would be more helpful. A lot of times I read through the entire reading without really understand anything. I am aware that theories are difficult to understand, but incorporating videos would be more helpful. I usually have to look up analysis or summary to help me understand the readings. |
| Syllabus was easy to understand and handouts and assignments were easy to access on moodle. |
| readings were very useful |
| Everything that we used this semester was free of cost and most of the materials were very useful. However, there were a few readings that left me a little bit confused and I had to get more understanding from our discussions in class. |
| I was super grateful that all of the course materials were available for free through the moodle and our other campus resources. |
| Professor Standlee did an excellent job of providing interesting readings and videos without assigning too many overwhelming works. She was great about breaking down some of the more complicated course materials as well. |
| There are always many examples and readings aren't too long but cover a lot of theory and theorists. |

| very good lectures, easy to follow and gave helpful answers to questions. |
| I really enjoyed the class lectures, there was a lot of information that was helpful during the exams. |
| Sometimes we run out of time on Monday and there is some leftover materials. Those materials should be covered on Wednesday before we go into discussing in groups. |
| She uses all the time for class in an efficient manner and always has time to answer questions and give examples. She also promotes learning opportunities on campus. |
| Class sessions were very productive, many great discussions. |
| One of my favorite parts of Professor Standlee's class is that she has both lecture and discussion sessions. With theory, it is difficult to make the material interactive, but Professor Standlee manages to do a great job. She asks about our experiences and perspectives, which makes the class far more interesting. She also makes easy-to-follow powerpoints for her lectures, which helps me because I am a visual learner. |
| I belive that this professor does her best at staying on track and getting through her powerpoints. She asks if anyone has any questions and does her best to make sure that everyone has a good understanding. |
| I liked the layout of the way class worked for the week with lecture and discussion during both class times. |

Q7 - How would you rate the assignments and tests the instructor required as measures of learning in this course?

| Very reasonable |
| The exams were very fair and quizzed the class on topics we covered in class while challenging us to think deeper. |
| tests allowed me to look deeper in my understanding of the subjects |
| Assignments and tests were very fair. At times test questions were difficult but it was a good challenge. |
| Professor Standlee assigns dense, but very interesting readings. She makes sure to account for our other classes, so there are never too many readings to handle. She assigns reading notes and discussion questions to check our understanding of the material, and she is happy to help us fix any gaps in understanding. |
| The exams always were fair and measured my intelligence accurately, there were never questions that we hadn't talked about before. We had weekly readings and discussion questions as well which helped us prepare for the exam. |
| The take home exams did a great job of refreshing my memory and alleviated the stress associated with test-taking. |

The material was hard but the way professor Standlee structured class helped so much. It was super helpful the way she lectured on Monday and discussed on Wednesday.
While theory can be a bit boring at times, I became really fascinated by the course material in a way that allowed me to engage with it and enjoy it.
helpful and good use of base knowledge from previous courses
Very interesting.
I very much enjoyed discussing and learning about the various theories we covered in this course and Professor Standlee showed a lot of depth in her knowledge on the subject matter.

Q11 - What were you not asked above that you would like to say about this class?

We only had to do remote when our Professor was sick. It was very helpful, and good that everyone had previous experience.

We had this class in person.

I really enjoyed this course and Prof. Standlee is a great professor!

Professor Standlee was extremely accommodating with all problems and was empathetic to all remote learning and sickness induced absences.

Not much remote learning, one week of zoom when the Professor was out sick. All was good.
